GREECE

Steeped in history and culture, scented by wild basil, Greece spoils visitors with its wealth of myths, legends and history, a blessed and dramatic landscape, an extraordinary fusion of past and present, and a variety of choices and experiences.

White washed walls, deep blue sky, olive groves, azure Aegean waters, golden beaches, all around a brilliant Mediterranean sun. The heavenly Greek islands have it all and more. Their stunning mountain ranges are dotted with caves and sliced by dramatic gorges, and their interior is blanketed with olive groves, wild flowers and aromatic herbs. Breathtaking sailing leads to a paradise of sandy beaches and isolated caves.
